

SEL 101 to SEL 360:

**A Comprehensive Approach to
Incorporating Social-Emotional Learning
into Strategic Priorities**

Mike Omenazu

Outreach Director

momenazu@panoramaed.com

Today's Speakers

Mike Omenazu, Outreach
Director, Panorama Education

Dr. Peggy Aune, Associate Superintendent,
Curriculum & Instruction, Collier County Schools

Linda Sun, Executive Director, Office of Academics
and Transformation, Miami-Dade County Schools

Special Thank You!

Poll

Which of these goals would you prioritize impacting through social-emotional learning?

Session Goals

1. **Gain** a shared understanding of social emotional learning and its impact on student outcomes
2. **Learn** how social emotional learning data can drive strategic priorities
3. **Take** action on specific next steps to elevate current improvement planning and student support planning

Stepping Back in Time

Reflect:

**Think back to your experience
as a student in school.**

**What's the first thing that
comes to your mind?**

Poll

Let's See...

Which of the following characterizes what came to mind?

- A) Academic content
- B) A relationship or social aspect of school
- C) How school made you feel
- D) Other

WHAT IS SOCIAL-EMOTIONAL LEARNING?

SEL is the process through which children and adults acquire and effectively apply the knowledge, attitudes, and skills necessary to understand and manage emotions, set and achieve positive goals, feel and show empathy for others, establish and maintain positive relationships, and make responsible decisions.

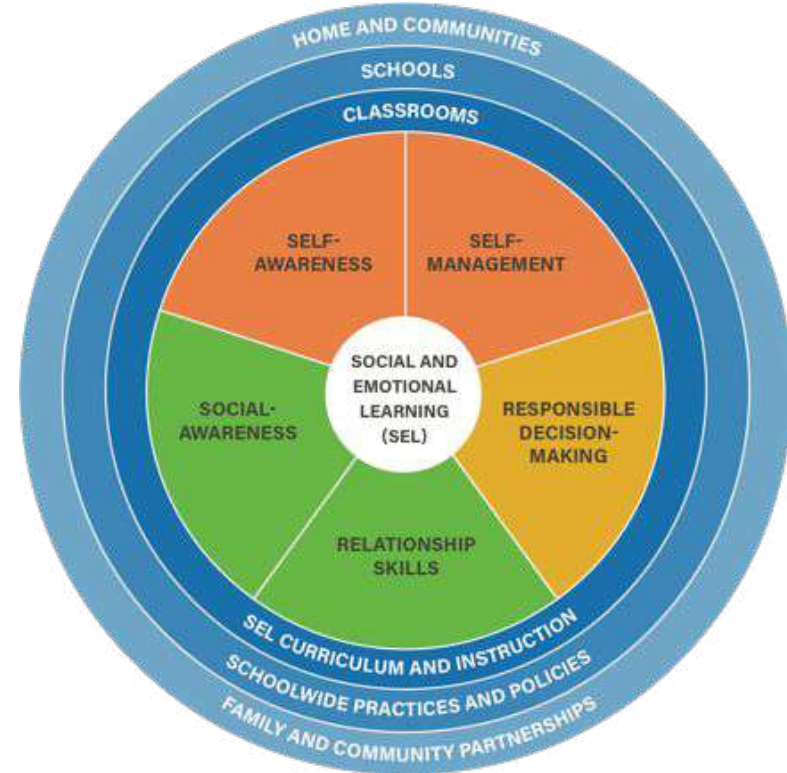

Personal qualities not measured by tests

How SEL can bolster strategic priorities:

- **Build Awareness, Commitment & Ownership** - “What indicators of success should anchor a unified vision for and coordinated approach to supporting the whole child?”
- **Create a Community Plan for Student Achievement** - “What do our student, family, and staff needs tell us to inform our goals, design PD opportunities, and provide data-driven decision-making regarding pivotal resources?”
- **Build Adult Capacity**- “How can we effectively support all staff in delivering supports with autonomy and fidelity as well as in cultivating their own SEL competencies?”
- **Track progress towards goals** - “Are the conditions we are creating actually moving the needle for students?”
- **Practice Continuous Improvement** - “Where are our persistent gaps and heavy hitters that we can focus on to refine our practices protocols?”

Why invest in social-emotional learning?

Take Action Now!

Determine which SEL skills and competencies are a focus in your district

Emotion Regulation

How often are you able to control your emotions when you need to?

Growth Mindset

In school, how possible is it for you to change how intelligent you are?

Grit

If you have a problem while working towards an important goal, how well can you keep working?

Self-Efficacy

When complicated ideas are discussed in class, how sure are you that you can understand them?

Self-Management

How often did you get your work done right away, instead of waiting until the last minute?

Social Awareness

During the past few weeks, how well were you able to describe your feelings?

PURPOSE-SETTING

How does SEL impact student outcomes, and how does the data fit within multi-tiered frameworks?

A large white number "1" inside a blue-outlined circle, which is the start of a long white arrow pointing to the right.

1

SEL and MTSS

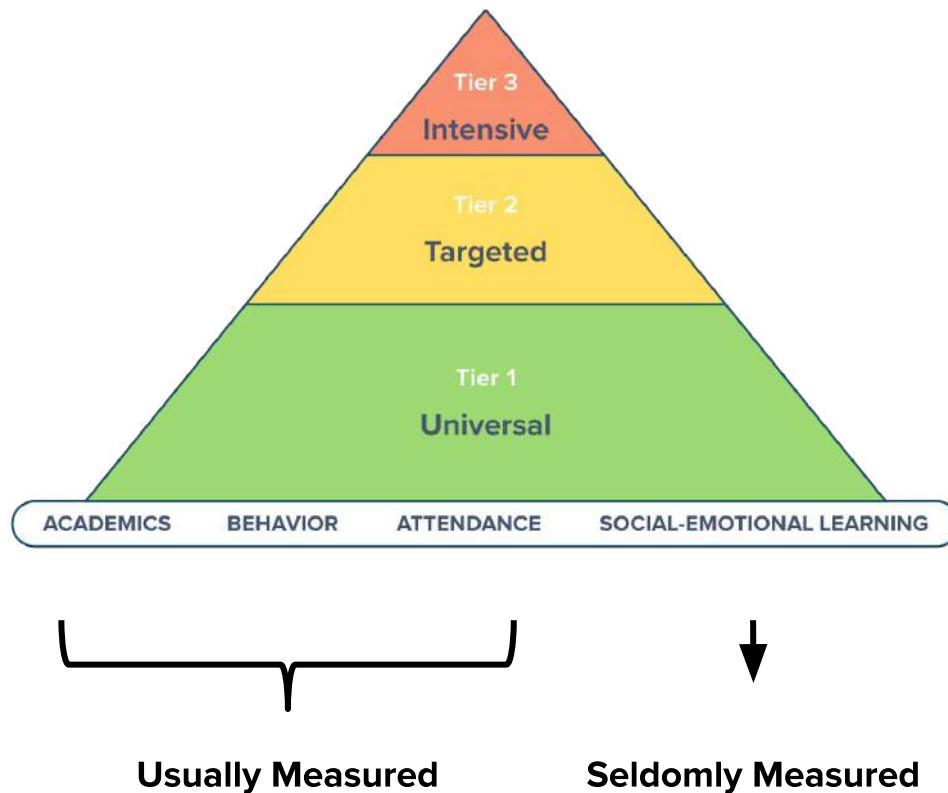

What: Multi-tiered systems of support (MTSS) is a model that represents a coherent, unified approach to providing all students with the best shot at success, even and *especially* when they struggle.

Why: It is designed to promote student flourishing and minimize the risk for long-term negative consequences associated with poor learning or behavioral outcomes.

How: *“Rather than adding yet another initiative to crowd out the to-do lists of teachers and administrators, [MTSS] helps to **connect existing efforts and systems across domains** and integrate the supports already provided to students into a **seamless whole**.”*

What is most associated with behavior incidents?

3X

Students who report low self-management skills are more than three times as likely to have behavior incidents.

Out of 100 students

who report *low* self-management,
45 will have behavior incidents.

who report *high* self-management,
14 will have behavior incidents.

Connecting to Student Outcomes

Social Emotional Learning and **Attendance**

DID YOU KNOW?

Highly engaged students are **57% less likely** to be **chronically absent** in school than students who report low engagement.

Social Emotional Learning and **Behavior**

DID YOU KNOW?

Students who report low Social Awareness are **2.5x more likely** to have one or more **behavior incidents** than students who report high Social Awareness.

Social Emotional Learning and **Coursework**

DID YOU KNOW?

Students who report high Self-Management are **75% less likely** to face **failing grades** than students who report low Self-Management.

Focus on Self Efficacy to Improve Academics, Attendance, Graduation

Self-Efficacy

Students with high levels of confidence are more likely to achieve academic goals and outcomes

Panorama Social-Emotional Learning Survey Questions

- How confident are you that you can complete all the work that is assigned in your classes?
- When complicated ideas are presented in class, how confident are you that you can understand them?
- How confident are you that you can learn all the material presented in your classes?
- How confident are you that you can do the hardest work that is assigned in your classes?
- How confident are you that you will remember what you learned in your current classes, next year?

Recommendation #4:

Build adult capacity through quality professional development

[Example] Data Inquiry & Action Planning for **School Leaders**

Outcomes:

- Understand how to interpret survey results
- Engage in data inquiry with others to reflect on outcomes
- Define areas of strength and improvement
- Craft action plans aligned to areas of priority

[Example] Strategic Survey Design for **District Leaders**

Outcomes:

- Align survey content to explicit and implicit priorities
- Build excitement and buy-in for measurement with key stakeholders
- Generate a deep understanding of the “why” behind collecting stakeholder feedback and SEL data

Executive Briefings

Insights based on your community's data, presented alongside tailored recommendations.

Coaching and Consultations

Customized and coherent sessions to help leadership teams understand, prioritize, and act on data

System Advising

Long-term collaboration to assess, improve, and sustain systems

Data is only as valuable as it is actionable.

Becoming “data-driven” in practice means more than simply utilizing new tools but also focusing on the human side of the work.

Recommendation #4:

ACT

Build adult capacity through quality professional development

SHARE → Share your proposed school-wide SEL focus area and why. Open up conversation with teachers and staff to build buy-in.

SEARCH → Educators then deep dive into [Playbook](#) with the goal of identifying 1-2 related Playbook moves they would like to try.*

STATE → Have educators write their “implementation intention” ([I/NAME] will do [WHAT] by [WHEN]) and post it in a shared space.

STRATEGIZE → Next staff meeting, reflect on which strategies were successful or difficult and why. Repeat!

ACTIVITY EXAMPLE

Pulled from an actual FL district session customized for counselors

[*Additional SEL and Climate Strategies Here](#)

A background image of students in a classroom, with a blue overlay. The students are focused on their work, with some using laptops. The text "Spotlight: Miami-Dade County Public Schools" is overlaid in white.

Spotlight: Miami-Dade County Public Schools

Miami-Dade County Public Schools - Middle School Redesign

- Serving 45,000 students across 49 middle schools
- Superintendent Alberto Carvalho's initiative within the office of the Chief Academic Officer
- Seeking to improve academic outcomes by understanding and addressing the social and emotional needs of all of our students

Motivation to Innovate

- Academic results stagnated
- School climate surveys showed parents and students weren't happy with traditional model
- Three themes emerged with additional input from student voice: Students asked for **greater social-emotional support**, **more engaging elements of curriculum**, and **opportunities to connect with adults**

What We Need to Understand

- **Sense of Belonging** – Do our students feel valued at their school?
- **Safety** – How do our students feel across key facets of safety, such as in-person and online bullying behavior and physical safety
- **Growth Mindset** – Do our students believe they can increase their intelligence and talent through effort?
- **Grit** – Do our students believe they can persevere through setbacks to pursue an important goal?

Each Middle School Develops Strategies to Improve SEL and School Climate

- **To improve safety**, one large campus developed a color-coded pass system and introduced it with a video created by students
- **To improve belonging**, one campus introduced “Club Hour” for students to explore new interests and skills
- **What’s the impact?** Improved attendance on Club Hour days, and increased student engagement

Review

How to Get Started Measuring and Improving Social-Emotional Learning

1. **Choose which topics to measure.** Which SEL skills, mindsets, and behaviors matter most to your district? Panorama's research-backed, customizable survey instrument contains [22 SEL measures](#) to choose from.

ASK

2. **Gather baseline data with an SEL assessment.** Whether done online or by paper, SEL surveys take students 10-15 minutes to complete in class.

ANSWER

ACT

3. **Analyze the results.** What are students' strengths and areas for growth? Panorama's reports display results at the school and district levels—as well as at the individual student level, if requested—with national benchmarks and subgroup analyses.

How to Get Started Measuring and Improving Social-Emotional Learning

4. Take action to improve SEL. Design a plan for improvement based on the data. Then, begin implementing the plan across your school or district.

ASK

5. Evaluate and adjust. Did the interventions and supports work? Conduct another round of surveys to examine the effectiveness of your school or district's SEL efforts.

ANSWER

ACT

GROUNDWORK

- Focus on "all students"
- Increasing graduation rates
- Expectations necessary for college and career readiness
- Second Step Program used as "guidance-led curriculum" for elementary grades
- Special services for students with multiple needs
- "State of Schools Reviews" focused on academic data

NOW

- Focus on "each student"
- Graduating every student
- Supports needed for thriving in college, career, and life
- Second Step Program integrated into school experience for elementary and middle schools
- Trauma-informed practices infused throughout schools
- "State of Schools Reviews" focuses on SEL + academic data for holistic picture of progress

ASK

ANSWER

ACT

School safety has multiple dimensions. The building blocks of a safe classroom (pictured to the right) range from a welcoming school environment, to fairness and respect among peers, to the absence of bullying behavior and violence.

That's why improving school safety requires a holistic understanding of students' experiences at school.

Collecting stakeholder feedback is a great way to understand safety from all angles when building an improvement plan.

- *How do students, teachers, staff, and families perceive safety at your schools?*
- *In which areas of school safety is your school or district strong?*
- *What are the opportunities for creating a safer, more positive learning environment for students?*

Key Dimensions of Safe Schools

ASK

ANSWER

ACT

Panorama recommends gathering survey data in the following areas in order to holistically address school safety:

1. Social-emotional learning and mental well-being

Social-emotional learning plays an important role in students' mental health and sense of safety at school. Students with strong social-emotional skills form better relationships, show resilience, and exhibit more positive behavior at school.

Use an SEL screener to measure students' habits and competencies, including Self-Management, Emotion Regulation, Social Awareness, and Grit. Then work with students to grow the SEL skills that contribute to a safe school environment.

2. School climate and culture

School climate—the overall social and learning environment on campus—is deeply connected to school safety. What type of environment are students walking into every day?

Find out how students, families, and teachers feel about different aspects of school climate, including Sense of Belonging, Teacher-Student Relationships, and School Safety. Use the data to target areas for improvement with a focus on fairness and equity for all students.

ASK

ANSWER

ACT

Identify schools that need support around school safety

Once respondents have completed the survey, Panorama's district dashboard makes it easy to see how schools in your district compare across every measured topic. As a district leader, quickly identify which schools could benefit from resources and professional development around creating a safer school climate.

Understand the experiences of student groups

Disaggregate survey results by demographics and other attributes—such as student race, FRPL, gender, and chronic absence status. See which student groups have lower perceptions of School Safety and Sense of Belonging so you can deliver the supports they need.

ASK

ANSWER

ACT

Surface community concerns related to school climate and safety

In addition to gathering quantitative data, use open-ended survey questions to collect written feedback about school climate. Panorama automatically analyzes the responses and surfaces common themes (e.g., “bullying” or “fairness”) in a word cloud so you can easily visualize the voices of your stakeholders.

Build students' social-emotional learning skills

Use SEL assessment data from Panorama to understand social-emotional strengths and areas for growth at the district, school, and individual student levels. Take action to help students control emotions, regulate behavior, and practice empathy using strategies in Panorama's [Playbook](#).

Track and support student behavior

Monitor students' behavior data in one place alongside academic, attendance, and SEL data. Proactively identify students who are at risk for graduation based on behavior—and provide individualized supports that promote school safety.

Parent Toolkit (<http://www.parenttoolkit.org>)

Children's social and emotional skills are developing all the time, and can be taught like any other skill. Supporting children's social and emotional development is crucial for physical and psychological well-being. There are five core competencies that contribute to social and emotional development.

SELF-AWARENESS	SELF-MANAGEMENT	SOCIAL AWARENESS	RELATIONSHIPS	RESPONSIBLE DECISION-MAKING
<p>What is it? Self-awareness is knowing yourself. It is about knowing your emotions, thoughts, and how they affect your behavior. It is the ability to accurately assess one's strengths and challenges, with a sense of confidence and optimism.</p> <ul style="list-style-type: none"> Identifying emotions Accurate self-perception Recognizing strengths Self-confidence Self-efficacy 	<p>What is it? Self-management is the ability to control your emotions, thoughts, and behaviors in different situations. It is the ability to set and work toward personal and academic goals.</p> <ul style="list-style-type: none"> Impulse control Stress management Self-discipline Self-regulation Goal-setting Organizational skills 	<p>What is it? Social awareness is the ability to understand and respect the others' perspectives, including those from diverse backgrounds and cultures. It is the ability to understand social/emotional norms and to recognize family, school, and community resources and supports.</p> <ul style="list-style-type: none"> Perspective-taking Empathy Appreciating diversity Respect for others 	<p>What is it? Having good relationship skills involves the ability to establish and maintain healthy and rewarding relationships with diverse people and groups. It is the ability to communicate clearly, listen well, cooperate with others, resolve social pressure, negotiate conflict constructively, and seek and offer help when needed.</p> <ul style="list-style-type: none"> Communication and social engagement Relationship building Teamwork 	<p>What is it? Responsible decision-making involves the ability to identify the impact of your choices on yourself and others. It is the ability to make constructive choices about personal behavior and social interactions based on ethical standards, safety concerns, and social norms.</p> <ul style="list-style-type: none"> Identifying problems Analyzing situations Solving problems Evaluating Reflecting Ethical responsibility
<p>tips Use different words to describe emotions. Example: Instead of saying "I'm happy we all got to spend the weekend together," try using a word like "grateful" or "thankful" or "glad."</p> <p>Use books or TV shows to point out emotions to your child. Example: When discussing a character in a book that you are reading, you can say, "The character reminds me of you — people like to talk to her because she is a good listener!" or "The character reminds me of the time when you were nervous because you didn't have any of your old friends in your class. Can you relate to the character?"</p>	<p>tips Share your struggles with your child to teach them about resilience. Example: "When I was your age, I wasn't good at sports, but I really wanted to be on the soccer team. I didn't get chosen the first year, but I practiced and got a spot on the team the next year. What are some goals you want to accomplish?"</p> <p>Talk to your child about the process it would take to reach their dreams. Example: "If you want to be a doctor, you need to go to college and medical school before you get to help patients. Maybe we should watch some movies about doctors and medicines so you can get an idea of what it's like."</p> <p>Compliment your child when they successfully delay gratification. Example: "I know you really wanted to watch TV right after school, but it shows a lot of responsibility that you picked up your room first. I'm proud of you for waiting."</p>	<p>tips Talk to your child about how kindness and gratitude are connected. Example: "You should always thank your friends and express the same in return. If your friend lent you a project today, was someone kind to you? Did you help someone today or brighten up their day by doing something nice?"</p> <p>Share your family values with your child. Example: "In our family, we value honesty, loyalty, generosity and kindness. We also respect others and we always try to value their feelings and ideas. How are some ways that you can apply these values to your own friendships?"</p> <p>Discuss the importance of being polite. Example: "When you are talking or interacting with anyone, be polite by listening patiently and not interrupting people when they speak. If your friend does something nice for you, don't forget to say 'thank you,' and if you do something wrong, try to apologize."</p>	<p>tips Talk to your child about the importance of trust in relationships. Example: "You should always trust your friends and expect the same in return. If your friend lent you a book, what do you think you should do? Have you ever lent to him? How did you make it better?"</p> <p>Practice active listening with your child. Example: "You made really good eye contact with me and you seemed to be very interested in what I had to say. Think like I when you pay attention as they speak, and that's why you need to listen actively when others talk. Why do you think listening is important?"</p> <p>Provide your child with tools that can help overcome bullying. Example: "What would you do if your friend started calling a classmate 'hurler names?' You can say something like, 'Our classmate was hurt by what you said. How would you feel if it was to you?' Maybe you should say that you're sorry."</p>	<p>tips Show your child that you love and support their decisions. Example: "If they have an issue with a friend, you can say, 'Would you like to talk to your friend and ask him what you did to upset him, or would you rather give him some time to cool down?' I will support you in whatever you decide."</p> <p>Talk through problems, logical consequences, and resolutions with your child. Example: "If your child is talking behind on their homework, you can say, 'Why don't you set aside your after dinner to continue working instead of hanging out at your friend Jerry's house tonight?'"</p>

15 Questions Your District Needs to Ask to Investigate and Address Equity

MIKE OMENAZU

Panorama & Restorative Practices

How to Get Started: Addressing Disproportionate Discipline

Question: How can our district better understand and address disproportionality in discipline?

Meet the Panorama Research Team

Samuel Moulton, PhD
Research Director

Tara Chiatovich, PhD
Research Scientist

Hunter Gehlbach, PhD
Director of Research

"Panorama helps us measure students' SEL skills aligned to our Loved, Challenged, and Prepared Index. It provides powerful analytics to tell us how loved, challenged, and prepared students are feeling, and it equips our schools with tailored strategies to meet students' social and emotional needs."

How to Integrate SEL and PBIS

New Tool: Measure Your Portrait of a Graduate

We'll generate a custom, research-backed survey to help you measure how students are developing your traits of a graduate.

[SUBMIT MY PORTRAIT](#)

How It Works

Step 1

Share the website link for your Portrait of a Graduate, or share the list of traits and definitions.

Step 2

Panorama maps your Portrait of a Graduate to our research-backed survey topics and questions for students.

Step 3

Check your email inbox for your customized survey!

Resources for Supporting Adult SEL

SEL Exploration Worksheet

Use this worksheet in a staff or professional learning community (PLC) meeting to explore definitions and examples of social-emotional learning.

Data Inquiry
A resource to support school-level insights and action.

What results stand out?	Why is this the case?	What other data does this relate to?	What is one classroom or school practice that could further these results?

Background:

Student Support Plan
A resource to help you create support plans for individual students.

Instructions

1. Define and identify three students in your school that you know are at risk academically and/or socially. Record their names below.
2. Consider the data you have about each student (academic, behavior, attendance, etc.). Then, note the student's SEL outcomes in Panorama.
3. Use the prompt below to choose the best intervention to support the student socially and emotionally.

Student Name	ANALYZE: What is happening?	DECIDE: What is the SEL goal for this student?	PLAN: Which interventions are best for this student?

Concerns:

Live Q&A

Your Takeaways:

Take 1-2 minutes

Email an intention to momenazu@panoramaed.com

1. What is something you're thinking about related to today's discussion?
2. What is an idea or next step you will initiate tomorrow?
